# TRIPLEXES AND QUADPLEXES IN RESIDENTIAL ZONING DISTRICTS

## QUICK REFERENCE GUIDE

A **Triplex** is defined as three dwelling units on one lot or parcel. A **Quadplex** is defined as four dwelling units on one lot or parcel. They may be detached or attached, either horizontally or vertically.

See [Bend Development Code \(BDC\) 2.1](#) and [\(BDC\) 3.6.200.H](#) for detailed requirements.

Three or four side-by-side dwellings sharing a common wall but located on their own lots are considered townhomes, regulated under [BDC 2.1](#) and [3.6.200.D](#).

This guide covers triplexes and quadplexes in residential zoning districts. For triplexes and quadplexes in Mixed Use zoning districts, refer to [BDC 2.3](#).

### ELIGIBILITY

Triplexes and quadplexes are permitted uses in the RL, RS, RM and RH zoning districts.

## DESIGN STANDARDS SEE BDC 2.1.950

### Garage Door Standards

The maximum combined garage door width facing the street is 50% of the total building width. As shown in the Figure below, the maximum combined garage door width facing the street may be up to 60% of the total building width if the front door entrance is within 10' of the longest street-facing wall of the dwelling unit. See Figure 2.1.950

Exemptions:

- Existing garages legally constructed prior to November 5, 2021.
- When the side or rear wall of the garage faces the street, provided the standards of [BDC 2.1.300\(F\)\(1\)\(a\)](#) are met.

### Front door Orientation Standards

The entrance must either:

- Face the street;
- Be at an angle of up to 45 degrees from the street;
- Face a common open space that abuts the street and is abutted by dwellings on at least two sides; or
- Open onto a porch. The porch must be at least 20 sq. ft. in area & have at least one entrance facing the street or have a roof. A covered walkway or breezeway is not a porch.

Exemptions to Orientation Standards.

- Triplexes and quadplexes created by a conversion of an existing dwelling unit.

### Windows and Doors

A minimum of 15% of the area of all street facing facades must include windows and/or doors. Gabled areas and garage doors (in blue) and roofs (in white) are not included in the base wall calculation when determining the minimum 15% calculation for windows/door areas. Facades separated from the street property line by a dwelling are exempt from meeting this standard. See [2.1.950.D](#)
